Internships Department of Art and Art History, TCNJ

The primary purpose of the college-level internship is the development of occupational or professional competence in the actual occupational setting after theory education has been completed. Other purposes (income, career exploration, learning-by-doing, on-the-job training, etc.) cannot be the primary purpose, though they may occur as a secondary result of the internship experience. A minimum of 50 on-the-job hours should be required per quarter course unit of credit (0.25 units). A substantial written assignment or portfolio requiring research and/or creative work should be required. A simple log describing activities may be included but in and of itself is not sufficient to satisfy this requirement.

An internship contract consists of four parts:

- 1. An enrollment form, which must be signed by the student, supervising faculty and department chair.
- 2. A proposal prepared by the student. The written proposal must follow the guidelines of the College and include the following information:
 - a. the number of credit hours from any previous internship, as well as the semester taken and the firm or agency where the internship was done
 - b. how credits are to be earned and what on-the-job activities will be required of the intern
 - c. the method of evaluating the internship to be used by the faculty supervisor
 - d. the firm or agency where the internship will be done
 - e. the professional person at the firm or agency who will supervise the student during the internship
 - f. information about on-site visits by a supervising faculty member whenever feasible
- 3. An official letter of hiring signed by the intern supervisor at the agency. The letter should confirm the student's acceptance into the internship program and include the starting and ending date, total number of hours, duties, and contact information and title of the supervisor.
- 4. An evaluation rubric that describes how the faculty sponsor will assess the intern's performance. The faculty sponsor should ask the agency supervisor to complete a mid-point and/or final evaluation such as the performance appraisal form of the intern.

The completed internship contract must be submitted to the Department of Art and Art History for review (by November 15 for Spring and May 1 for Fall and Summer). If a student receives an Internship offer after the Department's contract deadline, the student must complete and submit the contract as soon as possible to the supervising faculty (for a signature) and then to the department chair. The student and supervising faculty may be asked to attend a meeting with the Department Curriculum Committee to explain the internship and receive feedback.

Students interested in an internship must understand the following guidelines and requirements:

- 1. Enrollment is limited to upper division program majors or minors with at least a 2.5 GPA in that program.
- 2. The internship is an applied experience. Students must be working under guidance of professionals within the discipline of study.
- 3. Internships may be offered on either a graded or pass-fail basis.
- 4. Student taking a second internship is expected to obtain different knowledge and experience from the first internship.
- 5. A maximum of 3 internship units can be counted toward a degree, and a maximum of 2 course units is allowed for any single internship within a semester.

Further information on credits, GPA, and requirements for the Internship and The Internship Contract are available in the Student Handbook. *Check the student HOTLINE for opportunities*.
